Test Category:Unit Test	Description: Test the creation of a student venture		
Test Case: 1.0	Case Name: Create a new venture	Version: 1.0	Written By: Shawn Casey
Requirements Fulfilled: 3.1.2.2.1	Purpose: To ensure that students with full access to Strome InFusion can create a venture		
Setup Conditions: • User must be an approved user of Strome InFusion • User role must be Student, not SEC user or company • Student may or may not have other Ventures			

	Test Case Activity	Pass/Fail	Comments	Expected Result
1	Approved user creates a venture			New Venture is created, loaded into db and user may modify, make changes, and request resources for venture
2	Pending user creates a venture			New venture is created and loaded into db, but no further work may be performed on venture until user has full approval
3	Approved user creates a venture with the same name of a current venture said user owns			No new venture is created. User is asked to rename venture before proceeding
